

MAKING A DIFFERENCE

ONE JOB,
ONE SMALL BUSINESS,
ONE COMMUNITY
AT A TIME

Small Business Finance

WHY WE'RE DIFFERENT

- **We truly understand small businesses**, because **we're a small business, too**. We relate to and understand all the challenges other small businesses face every day.
- **We love what we do...** helping small business owners achieve their dreams! We love it so much we put all our earnings back into programs and services that help even more **small businesses grow, create jobs** and improve their communities.
- **We advocate for small businesses** on state and federal fronts, championing access to affordable capital through SBA and other small business programs.
- We go beyond just making loans. **We believe in educating and advising** small business owners so they get better at managing and growing their companies.
- We invest in programs that **benefit minority-owned and underserved small business owners**, because it's the right thing to do.

IMPACT THAT MATTERS

Over the last 38 years, we...

- Leveraged **over \$13 billion in capital** to help small businesses expand and create jobs.
- Stimulated the creation/retention of **174,000 jobs** (that's 12 jobs a day for nearly 4 decades!).
- Led efforts to pass legislation and improve dozens of policies and regulations that help **foster small business growth**.
- Invested \$4 million in launching programs and services that cater to small business – particularly **minority- and women-owned enterprises** that often struggle to access capital.
- Awarded \$165,000 in college scholarships.
